Garbage Bylaw Considered By Town Council

At the June meeting of the Vulcan town council Inspector Les Mallett of the Foothills Health Unit showed a series of slides on garbage disposal methods and equipment. A new garbage bylaw enacted by the town of Nanton was discussed and Mr. Mallett recommended that a similar bylaw be adopted by the town of Vulcan.

Council decided to enquire as to what action it may take to assist the building of the Recreation and Community Centre.

Petitions were received from property owners in Block 28 and Block 1 asking for construction of sidewalks fronting their property. Council authorized the building of these walks under the Local Improvements bylaw.

The town will apply for installation of protective lights at the railroad crossing on the entrance road to Highway 23.

Two garage building permits were approved: Thomas Brooks for a 14x26 frame garage on Lot 17, Block 16; contractor, self; value \$450. George Fath for a 14x26 frame garage to be moved to Lot 14, Block 26; contractor, self; value \$400.

John Rutberg Dies At Edmonton

A well known former resident of Vulcan district, John Rutberg, 78, of Edmonton died June 11, 1964.

Mr. Rutberg was born in Norvik, Norway and emigrated to Canada in 1909.

He homesteaded at Innisfail in 1911, moving to Barons in 1913 and to Claresholm in 1917.

In 1928 he settled his family in the Vulcan district where he remained until retirement to Edmonton in 1947.

Mr. Rutberg is survived by his wife Sarah, son John and daughter Mrs. Oneta Hill of Edmonton; five grandchildren; three brothers, Chris of Edmonton, Walter of Calgary and Haakon of Vulcan, and four sisters in Norway.

Private services were held June 13, in Hainstock's Chapel with Rev. E. O. Walker officiating. Burial was in Mount Pleasant Cemetery.

Teacher Honored On Retirement

Mrs. Elsie Murphy, a member of the Mossleigh teaching staff, was recently honored at a meeting of the Vulcan Local of the Alberta Teachers Association held in Mossleigh. Mrs. Murphy will be retiring from the teaching profession with the closing of school next week.

Duane Binning, Association President, presented Mrs. Murphy with a plaque and on the behalf of the teachers wished her happiness in her retirement.

Mrs. Murphy thanked the members and lunch was served by the Mossleigh staff. Following the closing of school Mrs. Murphy will make her home in Elnora.

All these ideals of mine, and those ideals of mankind, are but cowardly conceptions with which we cover up the actualities of life.

The bronze plaque shown above now officially identifies the elementary school at Vulcan as the Hazel Cameron Elementary School. The school was re-named earlier this year to perpetuate the memory of the late Miss Cameron and the plaque erected this month.

# County Band Ends Year With Public Concert

55 members of the Vulcan County Junior and Senior Band Association played their first official concert before a Vulcan audience since their formation, Monday night, June 15, before an appreciative audience of about 250.

Among the listeners were most of the parents of young musicians whose training along this line began last September and surprise was expressed at the sounds which came from the stage of the Elementary School auditorium. Expecting a somewhat punishing night of discordant notes, the crowd seemed a little amazed at the quality and variety of music achieved by the bands. Many of the numbers were well known and there was a minimum of the beginner-style of selections.

Under the direction of bandmaster Arthur Dee the program opened with a series of pieces by the 30 members of the junior band which ranged from marches and waltzes to some simple concert works. Their progress and enthusiasm was particularly noted when they provided accompaniment to a trumpet duet, Space Cadets, played by two of the senior band,

Wesley Schierman and Peter Pickersgill.

While the senior band was taking the stage for the remainder of the program Mayor M. R. Morrison expressed his pleasure and the good wishes of the town in return of band music and training to Vulcan, after an absence of many years.

From the difficult and well known favorite march, Colonel Bogey, the senior band moved through a variety of such marches as Our Director, American Patrol and R.M.B., and along to the quieter sounds of Sleep Kentucky Babe and Balladair and Swing Low Sweet Chariot, from Deep River Suite.

Additional enjoyment was found in an accordion solo by Casper Klotz, accompanied by Alvie Jacobson and Ken Beacom on drums and by several numbers in which a group of young girls from Calgary performed baton twirling routines.

A novelty number, Bury Me Out On The Prairie was sung by members of the band accompanied by Marcela Steiner, Jack Thurber, Lloyd

Munro in appreciation of the excellent work done the past three years by Lt. Burchak as Chief Instructor of the Vulcan Legion Cadet Corps. On behalf of the Cadet Corps, a set of cuff links was presented to Lt. Burchak by Lt. Ron Brinton.

## CORRECTION

On Page 9 of this week's issue of the Advocate, attention of readers is called to an incorrect heading on a story.

The heading refers to the report of the recent 48th Annual Conference of the Little Bow Constituency of the Alberta Women's Institute held at Vulcan but the actual story concerns the annual District Convention of FUA and FW-UA locals held at Okotoks, June 16.

The WI convention report will be carried in a future issue.

During the program company of speakers were introduced and spoke briefly to the crowd. Occasionally

speakers are criticized for not wanting to let go of a microphone but in Mr. Llewellyn's case his problem was that he could not let go of it. It "shorted" through his body and on his second cry "I can't let go", help moved over to free him.

Handling the parts department of the new dealership are the experienced staff of Bob Petrosky, Norman Lebsack and Richard Lebsack.

## LETTER TO EDITOR

Editor, The Advocate,  
Dear Sir:

The word is out! Vulcan is to have a "Recreational Centre"! The furniture is on the lot — and a lot is to be paid for the furniture!

The arrival of genuine recreational ambition to the town of Vulcan comes none-too-soon. The estate of social and cultural tradition here has been a confounded semblance of wheedlingly earnest counterfeit insanity. We have a pool room (ugh), a theatre (mediocre), a golf course (for social climbers only — viz., the kindly invitation at the gate), a swimming pool (dilapidated), and an ice complex (Moreso dilapidated). Each clique reigns over its respective section of town, completely void of any social contact with the other. The situation en tote is teetering chaotic.

Recent recreational prospects are a fresh start on a potential community coherence. Its a grandiose project and organizationally spirited citizens are to be commended for the incentive and personal initiative they have displayed in attempting to provide a recreational setting for the area. They are not to be congratulated for the way they have tried to sell it to the public.

The method of solicitation of funds is technically deplorable. If a canvasser were to approach me re a sizeable donation for the purchase of a pile of timber and brick, I, like many, would be insulted. (My philanthropic nature runs not as deeply as it supposedly should!) If he were to include mention of progressive enterprise and community programming, my ears would eagerly twitch. If he were to offer me a fitting, comprehensive, and intelligently planned recreational program with which to compliment the new structure, I would double my donation, shake hands, and administer a passel of encouragement.

The latter, unfortunately, I am unable to admit to. I find a near complete absenteeism of a responsible recreational philosophy — and what is a multi-thousand dollar rec. centre with no broadly based ideas or motives. The original motive is par excellence — Vulcan is in dire need of recreational facilities! But, what varied aspects of recreation are to be included? Are we going to have a building that will serve the entire interest of the community or the confined interests of a few "pushers"? Has our recreation committee surveyed the field of recreational talents and interests in the area? Have we, as citizens, tendered our respective ideas? Have we probed other rec. centres with a critical eye for programming direction and guidance? Have we taken full advantage of our provincial recreation and cultural development services?

I find we have satisfied our prime motive (need) and left ourselves with an equally important "How" — socially, culturally and financially. Being a critical stage, would it not be a sound realistic approach to move ahead with a recreational ideal, thereby generating a comprehensive, enticing "selling feature" for a public that is to contribute towards purchase? By soliciting without long range purpose are we not going to enslave and pacify our immediate attempts? This prevailing random non-positivism may lead to ultimate financial disaster if given leeway in such a large undertaking.

It is my humble conception that recreation should be the principal focus of community living. And, at a time when Vulcan could take a notion to expand, a well found rec. program is going to be amongst the top-rung assets of the community. A sound leisure-time program will: (a) augment the school's attempts to equip every citizen for fruitful use of leisure time — recreation and school having near mutual interests and supports, and (b) provide organization and leadership for individual, family, or group participation.

The rushed construction of the centre with no due regard for community programming allows for antiquation. Given a non-premeditated plan for a recreational setting, it must, at the outset, be interiorly flexible enough to allow for the recreational interests of the community! Shall we properly design a plan-program for the community or fit a community to the plan-program? I fear the latter will lead to stagnant non-func-

tionalism and leave our rec. centre a relief! Should we not, then, encroach upon a progressive phase which will allow program construction leading or coincident with brick stacking?

And what of the future? If we think our town has a future, it is an implied responsibility that we consider the future of the rec. centre. This may be mere speculation, but with consideration but with cautious experimentation through the growth of the centre, and with critical retrospection, we should be safe in coming forth with some sound provisions!

For example, suppose our pet swimming pool were to fail completely (which eventually will be the case). Suppose also that the most logical plan for its replacement is in conjunction with an existing rec. centre. Could we make provisions for the situation of a swimming pool on rec. grounds? Can we make provision mechanically and structurally for some dual-purpose functions?

Were the trend to move towards tennis, could we meet the demand? Arts and crafts? Dance? Drama? Hobbies? Music? Social recreation? Special events?

To recount: If we do not program adequately for present demands, we are quite assuredly bound to planned obsolescence. With no regard for the future of recreation, we are passively planning for obsolescence. If we are narrow and short-sighted, recreationally, we are planning for personal paranoic lunacy! If we are all of these things, we are going to fall into a financially embarrassing slump!

Respectfully yours,  
Dale Phillips  
Lucubrationist.

### WHAT'S THE DIFFERENCE?

What is the difference between the embroidery terms, drawn thread and drawn fabric, and hand-drawn? If you're preparing an exhibit for a fair, you want to be sure you're entering in the correct class.

Drawn Fabric embroidery is created by drawing together threads of the fabric to form a design. Lacy, open patterns are formed. The stitches are worked over a number of threads of the fabric. The working thread is always pulled firmly with each needle movement so that spaces are formed between the threads.

In drawn thread embroidery, threads are withdrawn from the piece of fabric. The remaining

loose threads are formed into groups with a variety of stitches, or all covered over with darning or overcasting stitches.

Hardanger, Norwegian embroidery, uses two principle stitches; the satin or kloster stitch, and a weaving stitch. The satin stitch is usually worked in groups of five over four threads of fabric. This is called a kloster block. These groups are worked to form squares.

When the blocks are completed, the threads are cut. Care must be taken in cutting the threads for the open work, being sure to leave attached those over which the weaving is to be done. The remaining threads may be ornamented by weaving or by overcasting.

What is meant by cross stitch embroidery? In exhibiting, cross stitch means done on counted threads, not using a transfer pattern. Cross stitch using a transfer pattern should be entered in an embroidery class.

"Standards for Judging", an excellent bulletin for exhibitors in competitive displays, is available from this office. Write or call in for your copy.

### CHECK YOUR SPRAYER

Don't take your crop sprayer into the field this spring until you have tested its efficiency. The use of a faulty sprayer can not only give poor weed control results, but cause reduced yields due to crop injury.

Uniform spray application of spray chemicals is essential to control weeds. A small variation in the rate of application may result in a poor kill of the weeds or injury to the crop, thereby causing a loss of time, effort and money.

Three parts of the sprayer which have the greatest effect on uniformity of spray application are the nozzles, the boom and the agitation system. These should be checked frequently. The nozzles should give even spray patterns. For precise spraying it is best to buy sets of nozzles and to keep them in sets. The boom should be rigid enough to prevent excessive boom whip. Accurate pressure control is essential for proper application of herbicides. Consequently, make sure the "pressure gauge" on your sprayer is functioning properly. Last, but not least, calibrate your sprayer before you commence your field spraying operations.

Here is one method of calibration for both over-all spraying and band spraying:

a) set out two stakes 330 feet apart.

b) pick a level spot and fill the sprayer tank with water. Operate the sprayer to be sure that the supply line up to the shut-off valve is full before finally filling the tank. Record the water level on a measuring stick.

c) Spray between the stakes in both directions at a definite speed and pump pressure. Turn the boom on as the first stake is passed in each direction and turn the boom off as the last stake is passed in each direction. The by-pass relief valve must be set to give the desired pressure when the shut-off valve is open. Mark the throttle setting.

d) Return the sprayer to the same location as before the calibration run. Carefully measure the amount of water required to refill the tank to the same mark on the measuring stick.

e) Calculate the application rate in gallons per acre (G.P.A.) using this formula:

G.P.A.—  
Gallons of Water added x 66  
Boom length (in feet)

Sample Calculation: Over-all sprayer. If the sprayer has a 25-foot-long boom and 12 gallons of water are required to refill the tank, the application rate is:

G.P.A.—  
 $\frac{12 \times 66}{25} = 31.7$  gals. per acre

## The United Church Says Goodbye To Sharpe Family

On Sunday evening about 200 of Rev. D. A. Sharpe and Mrs. Sharpe and family gathered at a social evening given in their honor at the Church Hall of Vulcan United Church to mark the departure of the Sharpes from the Vulcan congregation.

A program, chaired by Evan Williams, chairman of the Board of Stewards, consisted of a piano solo by Donald Shields, a vocal duet by Donald and Bonnie Shields, two numbers by the Junior Choir under the direction of Arthur Jones and accompanied by Bill Tompkins, a solo by Stewart Galbraith accompanied by his mother, Mrs. D. H. Galbraith, three piano solos by Bill Tompkins and a clarinet solo by Jimmy Sharpe.

Rev. R. Pelham, President of the Vulcan Ministerial Association, expressed the loss being felt by that body through the retirement of Rev. Sharpe from the Vulcan congregation and also mentioned that the congregation of the Church of Christ was sorry to see the Sharpe family leave Vulcan.

Rev. Bruce Fyke of Champion United Church, Rev. M. R. Heebner of the Vulcan E.U.B. Church and Rev. V. Cowell of the local Anglican church all mentioned the high esteem in which the Sharpes were held in their organizations.

At the conclusion of the program, Jimmy Williams, on behalf of the Junior Choir presented Jimmy Sharpe with a Hymnary and Robert Ness presented Andy with a fishing rod from his Sunday School class. Dennis Sparks, on behalf of the H-C Group of

the church, presented Rev. and Mrs. Sharpe with a pair of beautiful wall plaques as a reminder of his association with this young people's group and a token of appreciation for the time and work he put in with them over the years in Vulcan.

On behalf of the Senior Choir, Arthur Jones presented Mrs. Sharpe with a lovely bouquet of flowers in appreciation of her many services to the choir over the past six years.

Finally, the Clerk of the Session, M. R. Morrison, invited Rev. and Mrs. Sharpe, Andy and Jimmy and Mrs. Peacock to the front of the hall where he presented Andy and Jimmy with pens bearing their engraved names and Mrs. Peacock with a beautiful brooch as a reminder that they had made many friends during their stay in Vulcan. To Rev. and Mrs. Sharpe he presented a purse of money from their many friends in and out of the congregation with the very best wishes for health and happiness in the years that lay ahead.

The program closed by all singing "Blest Be The Tie That Binds" followed by benediction by Rev. Bruce Fyke.

The ladies of the United Church Women served a delicious lunch during the social hour that followed.

The Sharpes are leaving Vulcan on June 30 for New Brunswick where Rev. Sharpe plans on taking a summer course at Mount Allison University and in the fall they propose going to New York where both Rev. and Mrs. Sharpe intend to spend a year furthering their education at Union College.

## County Band Ends Year With Concert

(Continued From Front Page)

Jones and son Elgin and Bill Hale on piano, violin, bass violin and guitars.

French Festival was another well received number and the concert ended with a collection of old favorites such as Heartaches, Piano Roll Blues and Sugar Blues arranged as Standard "Pop" Favorites.

Highlight of the evening was the presentation of two trophies to deserving members of the junior band. A trophy put up by Vulcan Bakery and presented by bandsman Fred DeJong on behalf of his firm went to Jimmy Sharpe whose progress on the clarinet earned him this award. It includes a trophy and \$35 scholarship to a band camp being operated this summer by Conductor Mr. Dee. As Jimmy is leaving Vulcan immediately, the scholarship went to Bobby Priebe, considered next in line by judges from the senior band.

Another \$35 junior band scholarship to the band camp by the Senior band went to Roseanne Findlay.

At the conclusion, Mr. Dee and band president Lloyd Jones expressed their pleasure and thanks to members of both bands for their efforts in the past year and to the parents whose interest in this musical opportunity for their children made this possible.

The senior band has had an

active month. In addition to the Vulcan concert, it played for the Saturday parade of the Lake McGregor Race Meet on June 13 and at the Richardson and Gould Garage during the program announcing the opening of the Cockshutt implement dealership to the garage.

The band is engaged to play at Enchant the morning of July 1 and will return to Vulcan for an appearance at the Elks Celebration in the afternoon.

## FROM THE PASTOR'S DESK

### LEGACY OF LOVE

This prayer we should utter daily: Let me so live that generations to come will find my steps clear and deep and true. God grant my path may lead uphill in the sunlight, through cool forest and by calm waters. Let me take each step with love of my fellow man, understanding of his frailties and faith in God and His promises.

If we can give our children and all those whom our lives touch a bit of our strength gained through the storms of life, if we can help them launch a trim, steady craft that will weather turbulent seas, we will have fulfilled the little span given us here to the fullest measure. What greater legacy than love?

## SWIMMING NEWS

(By Dale Phillips)

The initial two-week formal-class session of the season is ready to commence on June 29 with approximately 110 aqua-enthusiasts enrolled. Chances for enrolling in the second two-week session are narrowing quickly and prospective applicants are urged to register now.

The Bronze Medallion class will begin July 27. Those who have their Medal award should requalify by adding a bar to it. An Award of Merit course will also be offered if interest enough is shown; as will Bronze Cross, Elementary and Intermediate Life Saving, and Jr. and Sr. Artificial Respiration. Make inquiries at the pool.

Due to failures of adult swim sessions in past years, July 8, 6:30 — 8:30 p.m., will witness the beginning of a consecutive series of Wednesday evening Family Swimming periods. No one under the full age of 16 will be permitted use of the pool during these two hours unless accompanied by a parent. The adult swimmers, of course, need not be accompanied by a family.

Persons interested in the formation of a competitive swimming and diving club during July and August please contact Dale Phillips at the pool.

## Crops Excellent Following General Showers

Crop conditions are generally excellent following last week's showers, when practically all parts of the county received precipitation varying from one-half inch up to three inches.

Pasture and fall crops benefited particularly from the moisture, as they were starting to show the effect of the month-long dry spell. Spring crops are making good growth and the warm, sunny weather being experienced this week should bring them along rapidly.

Warm weather may bring a grasshopper problem to some areas.

The building's gone and only the people remain of the above photo taken during the old Canadian Imperial Bank of Commerce's last days during December of 1963. In the foreground is accountant Don Hule and with him is Floyd Atkinson who has travelled through the old bank doors for more years than most of us would care to remember. Behind Mr. Atkinson is the Rev. D. Sharpe and one of the bank staff is at the rear behind a counter.

THE TAR SANDS OF  
ATHABASCA HOLD ENOUGH  
PETROLEUM TO LAST CANADA  
FOR ALMOST 1000 YEARS

Alberta's Athabasca tar sands are estimated to contain more than 300,000,000,000 barrels of recoverable oil. In partnership with other companies, Imperial is working on methods to produce oil from these sands.

IMPERIAL OIL HAS  
INVESTED MORE  
THAN \$100,000  
A DAY IN ALBERTA  
— EVERY DAY  
FOR THE PAST  
15 YEARS!

Imperial's capital and  
exploration expenditures  
in Alberta totalled more  
than \$568,000,000 in  
the period 1949 to 1963.

IMPERIAL RECEIVES ABOUT  
HALF THE PUMP PRICE FOR A  
GALLON OF ESSO GASOLINE  
The remainder goes to the dealer and to  
provincial and federal taxes. Out of  
Imperial's half, the company pays  
costs of exploring for, producing,  
transporting and refining oil, and of  
distributing products to the customer.

## W.I. Conference Held At Vulcan Church

Ninety-three delegates from 10 FWUA and 14 FUA locals met on June 16, in Okotoks, under cloudy and showery skies for the annual District Convention.

The meeting opened with O Canada and invocation by Rev. Jenner who had assured the farm group that the church as a whole was interested in, and was studying the present-day problems of the farm family. He gave a fine example of this when he later joined in the discussion of a community problem.

Minutes of the last annual meeting were read and adopted and the financial report given.

Representatives from the Co-op Insurance gave information on the management of the Company of which the FUA is one of the shareholders. Mr. Gorrell, specialist in estate planning, gave some suggestions on benefits and money saving hints to be derived from proper planning.

Walter Smart, Junior FUA president, told of the Gold Eye Lake Camp, its size, facilities, cost, financing, and program of camps for the year. He particularly urged as many as possible to attend the Junior FUA Convention to be held at the Camp on July 2 and 3.

Instead of a queen contest this year, there is a Farm Junior Leader Contest, the winner to be chosen at the convention, and will be judged on participation in community affairs, knowledge of current events, farm management, co-op, public speaking, etc. so far, there are only five contestants.

Under the Junior FUA sponsorship, a Junior member from Ontario will soon be arriving in Alberta to take part in various tours and activities, culminating in the Calgary Stampede.

The Juniors support the adult leadership course now held annually at the Banff School of Fine Arts in the spring.

In closing his address, Mr. Smart issued a plea to the FUA to not forget the 9000 Juniors. All groups work together, but in different branches.

It was agreed by the Convention, to pay out-of-pocket expenses for anyone who would take a car-load to the Junior FUA Convention.

Just before adjourning for dinner, a presentation was made to Felix Noel, who will be moving to

B.C. the end of this month. Mr. Versluys paid a well-deserved tribute to Mr. Noel for his untiring work, first as a local president, then as sub-director. Tribute was also paid to Mrs. Noel both for her work with the FUA as well as often managing the farm, giving Mr. Noel more FUA time.

Almost 100 enjoyed a delicious dinner, served by the ladies of the United Church.

In his after-dinner address, FUA president, Paul Babey, touched on many of the FUA's problems: the mis-leading conceptions regarding farmers' incomes, given by newspaper headlines which tell only part of the story; changes in regulations re moisture-content in wheat; possible organization of a tour to China or Japan for goodwill and contacting new market outlets; pros and cons of a Hog-marketing Board; possibilities and advantages of unifying the different farm organizations, and how it might be started.

A short discussion period followed, dealing principally on the proposed re-organization of the farm groups.

The following directors for District 12 were re-appointed by acclamation: C. Versluys and Doug Galbraith of Vulcan as alternate directors; Mrs. May Huddleston and Mrs. Lola Lange, alternate directors. The following sub-directors had been introduced earlier: Mrs. Inge Marr, Pincher Creek; Mrs. Janet Hogg, High River; Mrs. Betty Papp, Milo; Queenstown Local; Neil Ohler; Doug Galbraith; Henry Alf McGlenn, Pincher Creek; W. Matlock, Champion; Harold Mille, Midnapore.

Mrs. Margaret House, secretary, was absent and was sadly missed by everyone as she was known to all. On account of health she has had to resign. It was unanimously the wish of the meeting that she be sent a card signed by all the delegates, along with a token of their appreciation. Mrs. Betty Papp has kindly volunteered to act as secretary.

Mrs. Rellam, Provincial FWUA President, in her address, stressed the importance of careful wording of resolutions submitted. She has had considerable experience on resolutions committees as a Western delegate and as delegate to Canadian Federation of Agriculture. She urged farm women to take advantage of Farm Women's Week at Olds, also to make use of "The Organized Farmer" — the bulletins are in it. Also please send in any suggestions for programs.

The FWUA are still working to have legislature passed to revise the Adoption laws, and have been working on the protection of widow's rights.

Attention was called to the FWUA project: the Dr. Irene Parby Scholarship Fund; contributions always welcome and needed.

She also stressed Safety and told of an award given for safety ideas and gadgets.

Resolutions requesting the abolishing of Federal 11% sales tax on drugs and medicines which imposes hardship on pensioners, and persons of limited means, and requesting that drivers' licenses be made of more durable material such as plastic passed with no discussion.

A resolution submitted by the Arrowwood FWUA asked the Canadian Federation of Agriculture to arrange for an exchange of Sr. High School students during the summer holidays to promote better understanding between English and French cultures.

A resolution was introduced, dealing with the Hutterite question and asked that the Communal Property Control Board be dissolved, laws pertaining to Hutterites be rescinded and that Hutterites be subject to the same laws as other Alberta citizens as regards to Education, Income Tax, Succession tank, the application rate is:

While all, and especially those living next to the Hutterite colonies, realized that the establishment of these colonies poses a serious economic and social problem to the community, there was considerable thought and discussion on the subject before the resolution passed unanimously.

Following a very pleasant break for coffee and cookies, Dianne Beatty entertained with selections on her accordion.

After this, Arnold Platt addressed the delegates, dealing with the current problem of the several farm organizations and the proposed combining of these where

there is duplication of services. Rather than offering solutions to the best way to bring about this, he said this must come from the farmers themselves in their locals and districts.

A short question period ensued. Before the delegates adjourned, Mrs. Huddleston thanked all, individually and collectively, who had made this a most successful convention.
